

The naked man burglar

Last night at early morning hours well-known filmstar Cobie Smulders was assaulted in her own house by the Naked man.

Cobie Smulders, who was a victim of the robbery, was sleeping after the hard work on the new episode of How I Met Your Mother called The Naked Man. In this episode Robin (Cobie Smulders) who is normally good girl slept with the fat ugly man, because he used technique The Naked Man, which is working in 2/3 cases. Just come with a girl to her place, put off all your clothes and the object of your passion is yours. Warning, it works in 2/3 cases.

About midnight Cobie heard some strange noises. She left her bed and sneaked to the kitchen, where the noises came from. She saw a totally naked man who was eating as a pig. Cobie picked up her baseball racket and shouted at him. Burglar, who was scared, hungry and without clothes, started to cry. He said that he had lost everything, his job, wife, home. She was merciful, dropped the racket and gave him something to eat, to wear and let him sleep there.

Two naked men in one day are just a coincidence.
